To Whom it May Concern

The New Zealand Breast Cancer Foundation support the Deaf Expo 2 to be held in Auckland in September 2010.

It has become aware to us, through our work with the Deaf community, that access to appropriate information and resources is very limited and therefore opportunities such as the Deaf Expo2 are very valuable. Ideally this would be part of a larger national strategy to ensure health messaging reaches this community .

Deaf Expo2 will be an opportunity for resources and services that are available to be showcased, enabling the Deaf community to easily access the information, whilst also having the opportunity to have many of their queries answered by the stall holders and service providers.

The New Zealand Breast Cancer Foundation look forward to being a part of the Deaf Expo 2, providing support and information through our participation.
